**Our company exists to create superior parks, public open spaces and sports facilities to improve the health and wellbeing of our communities**

Feel free to contact us if you need our expertise

We do this by supporting local government and other agencies with sustainable planning and management of parks, open spaces and public facilities to create better towns and cities for people to live and play.

Xyst has offices in New Zealand, Australia and Canada. Our team of highly qualified and experienced consultants is available to provide you with practical, feasible and achievable solutions to deliver projects that meet the needs of your community, support sustainability and minimise the impact on the environment.

# Recent Projects

Xyst has extensive experience and expertise across the spectrum of creating, managing and maintaining outdoor spaces. Take a look at some of our projects to find out how we have improved the outdoor spaces in communities throughout New Zealand, Australia and Canada.
